[The Guide to United States Popular Culture](#) William Labov 2001 "To understand the history and spirit of America, one must know its wars, its laws, and its presidents. To really understand it, however, one must also know its cheeseburgers, its love songs, and its lawn ornaments. The long-awaited Guide to the United States Popular Culture provides a single-volume guide to the landscape of everyday life in the United States. Scholars, students, and researchers will find in it a valuable tool with which to fill in the gaps left by traditional history. All American readers will find in it, one entry at a time, the story of their lives."--Robert Thompson, President, Popular Culture Association. "At long last popular culture may indeed be given its due within the humanities with the publication of The Guide to United States Popular Culture. With its nearly 1600 entries, it promises to be the most comprehensive single-volume source of information about popular culture. The range of subjects and diversity of opinions represented will make this an almost indispensable resource for humanities and popular culture scholars and enthusiasts alike."--Timothy E. Scheurer, President, American Culture Association "The popular culture of the United States is as free-wheeling and complex as the society it animates. To understand it, one needs assistance. Now that explanatory road map is provided in this Guide which charts the movements and people involved and provides a light at the end of the rainbow of dreams and expectations."--Marshall W. Fishwick, Past President, Popular Culture Association Features of The Guide to United States Popular Culture: 1,010 pages 1,600 entries 500 contributors Alphabetic entries Entries range from general topics (golf, film) to specific individuals, items, and events Articles are supplemented by bibliographies and cross references Comprehensive index

**Sport and Political Ideology** John M. Hoberman 2014-06-30 Across the modern political spectrum, left-wing and right-wing political theorists have invested sport with ideological significance. That significance, however, varies distinctively and characteristically with the ideology—a phenomenon John Hoberman terms "ideological differentiation." Taking this phenomenon as its point of departure, this provocative work interprets the major sport ideologies of the twentieth century as distinct expressions of political doctrine. Hoberman argues that a political ideology's interpretation of sport is shaped in part by the value it assigns to work and play as modes of experience; the political anthropologies of right and left can be distinguished by examining their resistance to—or affinity for—sportive imagery of their leaders and of the state itself; there exists a fascist temperament that shows an affinity to athleticism and the sphere of the body that is not shared by the left. Tracing modern sport ideology back to its premodern antecedents, Hoberman examines the interpretations of sport that have been promulgated by European political intellectuals, such as cultural conservatives and contemporary neo-Marxists, and by the official ideologists of Nazi Germany, the Soviet

Union, the German Democratic Republic, and China before and after Mao. As a form of mass theater, sport can advertise any ideology. But the deeper relationship between sport and political ideology has never before been explored with such vigor. Presenting the first general theory of sport and political ideology to appear in any language, Hoberman's groundbreaking work is a unique and invaluable contribution to the intellectual and political history of sport in the twentieth century.

**Ebony** 2005-11 EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine.

[Who's Who in the Arab World 2007-2008](#) Publitec Publications 2011-12-22 Who's Who in the Arab World 2007-2008 compiles information on the most notable individuals in the Arab world. Additionally, the title provides insight into the historical background and the present of this influential and often volatile region. Part I sets out precise biographical details on some 6,000 eminent individuals who influence every sphere of public life in politics, culture and society. Part II surveys the 19 Arab Countries, providing detailed information on the geography, history, constitution, economy and culture of the individual countries. Part III provides information on the historical background of the Arab world. Indexes by country and profession supplement the biographical section. A select bibliography of secondary literature on the Middle East is also included.
