niae2 Our choice of the fast-food industry was driven by several factors. First, fast-food stores are a leading employer of low-wage workers: in 1987, franchised restaurants em- 2At the time we were uncertain whether the \$5.05 rate would go into effect or be overridden.

What Is Political Economy? - Princeton University

a positive economics of policy choice follows almost immediately from the normative economics of policy choice. Note that the process of deciding technically what policy to adopt, the decision central to this approach, is very different from the process of deciding on policy which the definition of politics would suggest.

on rational choice. This view, close to Wrong's "oversocialized concep-tion," is reflected in James Duesenberry's quip that "economics is all about how people make choices; sociology is all about how they don't have any choices to make" (1960, p. 233) and in E. H. Phelps Brown's description of the "sociologists' approach to pay determination ...
